Alex Mattern

# What is it?

- Designed for use by clubs at RPI, could be adopted elsewhere
- Web-based control of clubs' inventories:
  - Cataloging
  - Lending
  - Repairing
- Easily determine what equipment a club has
- Make life easier for club officers in charge

# Semester goals

- Improve security
- Improve visual style
- Refactor and improve code
- Generate XHTML compliant pages
- Other feature additions
- Get installed on RPI Union systems
- Live use and feedback from clubs
