<b>Resolution:</b>			
<b>Subject:</b>	Club Management		
<b>Description:</b>	There is no way to create a new club in the system. With this, a site administrator access level should be created which could create new clubs and manage all of the other clubs.  With this addition of the new level, I have to ask if there is a better way to define access roles than checking integer values?		

### History

---

**01/14/2010 10:26 PM - Josh Elser**

- Assigned to set to Josh Elser

**01/14/2010 10:26 PM - Josh Elser**

- % Done changed from 0 to 80

Basic functionality is present. Support should be added to change user privileges for a club.

**01/17/2010 11:37 PM - Josh Elser**

- % Done changed from 80 to 100

Finish making functions to edit user permissions
